

I really enjoy XM Radio and especially their recent addition in their traffic and weather channels. I travel quite a bit and when I go through those cities across America where XM Radio provides traffic and weather conditions it makes it extremely helpful. I don't know of any other radio stations that can provide this constant service.

I urge you to reject any thoughts of dropping this service and the NAB's petition 04-160.

We deserve this service and XM Radio now provides it at no additional cost.

Thank you for your consideration in this matter.
